## **ALL GRAIN MARKETS** SHOW A STRONGER FRONT.

WELL-DEFINED CHANGE FOR THE BETTER IN GRAINS.

Strength Was the Feature Most of the Day and There Was an All-Round Advance.

Early market influences to some extent were against speculative grain markets yeserday, but the slight weakness developed at the outset was recovered from in short order, and the different grains improved almost uninterruptedly to the close, which was right up around the best prices of the day and %c to 1%c higher for wheat, %c up for corn, and from %c to %c better for oats, There was not much life displayed in pit proceedings, and there were times when iderable duliness and a lack of interest were shown, and for that matter the situation, taken as a whole, may be said to have been more or less featureless outside, of course, of the good undertone of strength, was shown by all grains, and es-

The prime factors in bringing about the transformation in the position of wheat yesterday from the very unfavorable conditions prevailing last Saturday, and which resulted in quite a severe break in values, were embodied in the weather conditions, which the need of rains in a great many were embodied in the weather commons, chiefly the need of rains in a great many localities, and especially in the West and Southwest, being feit, and a number of drouth compaints were received during the Southwest, being feit, and a number of drouth compaints were received during the day. There was nothing favorable to be gotten out of the earlier cables, which not only reported Liverpool and off, but also reported large world's shipments and an increase in the amount affoat of 29,000 bu. as against a decrease one year ago of 25,000 bu. It was dry weather, however, that started buying, which was so very good that about all of the July was taken, at 68,00, or he off since Saturday, but which was quickly followed by an advance to 69,00, and in a very short time 1,00,00 bu. There was no more encouragement to be found in late cables than there was in earlier ones. Liverpool, it is true, regained some of its decline, and closed only hid lower for the day, but Paris, owing to fine weather in France, developed only moderate market conditions. Berlin was le lower, and Buda-Pesth he, while Antwerp was unchanged. The export clearances were large at 68,000 bu., but the visible report was a disappointment, as it showed a decrease of only 80,000 bu, when a much larger one had been looked for. There was no decline in prices, however, the dry weather and reports of damage by bugs holding the market. July sold up to 68,60, and for May 73,40 was bid. The cash news all through the day was poor, and but little business on both foreign and domestic account was heard of. New York reported 20 loads, but local exporters said they could do nothing. However, the shorts were frightened at the drought scare and their buying held the market up and advanced values, July going to 69,60, at which it closed buyers. May was nominal at 135c, and 8ept had a seller at 69,00.

which it closed buyers. May was instantal at 13%c, and Sept had a seller at 63%c.

The local market for corn made a bad start, the earlier influences being against snything like a bull movement. There was quite a pressure to sell at the opening on the large receipts, fine weather and 1%d decline at Liverpool. All markets showed weakness, but there was developed such a very strong demand that the early sellers were quickly cleaned out and a complete change took place in the position of the market, and July, which spend at 1%c decline at 41%c, reacted and sold at 42%c. The visible supply of this country showed a decrease of 1,327,000 bu., as compared with 1,863,000 bu. decrease one year ago, and the amount affoat was increased 1,272,000 bu., whereas last year there was only 112,000 bu. increase. The clearances were large and amounted to 633,000 bu., and Liverpool recovered 1/4 and closed 3/d lower for the day only. On the above July advanced to 47%c. The weather talk and the strength shown by Chicago created uncasiness among the shorts and they bought freely, though most of the buying was by the long interest the feeling being very bullish among them. During the last half of the session July sold as high as 42c and at close 42%c was bid, when there were bids of 43c for May and 45%c for Bept.

The weather entered largely into the influences governing the local market for cats, the dry weather advancing all domestic markets. July here was very strong and after selling at 25½c was bid 25½c, at which it closed. May was in demand in a

| quiet way and sold at 29%c. There was a decrease in the visible of 1,077,000 bu., as against an increase a year ago of 209,000 bu. |                               |                     |

### PRODUCE MARKETS.

Local Fruit, Vegetable, Pouitry Egg and Butter Quotations.

The produce markets were in fairly good condition yesterday and were more active than is usual on Monday. Receipts were liberal, however, and prices of vegetables were generally easier. Shippers were in the market for good stock and there was a fair local demand.

Potatoes were steady and unchanged. Receipts were light, but were equal to the demand, as there was only a limited inquiry for fancy, smooth, eating varieties, which were scarce. Common, inferior and sprouted stock was not wanted at any price and offreings were liberal. New potatoes were weak and lower, as receipts were heavy and were in excess of the demand. Offerings were generally of better quality than they have been running.

Sweet potatoes were quiet and steady at unchansed prices, with offerings about equal to the demand.

Spinach was plentiful and weak, as the demand was slow.

Kale was also plentiful, but there was a fair demand, and prices were steady.

Lettuce was dull and weak, as offerings of home-grown stock were in excess of the demand.

Green peace were dull and weak, as offerings were heavy.

Cabbage was firm and higher. Offerings were more liberal, but the demand was excellent.

Onions were dull and weak, as firm so in the lower of the demand and offerings were more liberal, but the demand was excellent.

Onions were dull and weak, as there was little demand, as there was little demand and offerings were heavy.

Cucumbers were dull and weak, as there was little demand and offerings were heavy and there was little demand slow.

Other vegetables were quiet and unchanged. Apples were slow and unchanged, as there was little demand and offerings were heavy.

Cucumbers were dull and weak, as there was little demand and offerings were liber.

Strawberries were in good demand, but receipts were liberal and prices were steady. About 1.70 cases came in from Arkansas, in addition to the receipts from Kentucky and Inchanged. The latter were generally in the condition and brought ton prices.

Orneges were steady and in fair demand, as the consump

and properly iced, and spring chickens sold fairly well, but turkeys ducks and grees were slow of sale.

Veals were quiet but firm, as offerings were light and barely equal to the demand.

Game was quiet and steady at unchanged prices, with both offerings and demand light.

Wool was quiet and steady at unchanged prices. Receipts were heavier, but there was a fair demand, and offerings of good stock met with ready sale.

Hides were steady and in fair demand. Green salted were expecially wanted, and were firm.

Furs were dull and nominally unchanged.

The egg market was quiet but steady at unchanged prices restorday. Receipts were considerably heavier than the shipments but there was a fair local demand. Fresh receipts sold at 100 for nearby, but Southern stock sold at 35c.

Receipts at 51 Louis were 1.52 cases and shipments were 4.50 cases.

Fruits and Vegetibles.

APPLES—Quote: Enidwin at \$2.7562.75, according to quality, diamaged, egomon and off stock lesse; reasest at \$2.5562.50 for fancy; Ben Davis from \$2.56 to \$2.75.

SCRAP HRON AND METAL—Per 100 lbs. Receipts at 30 cases.

Dairy Products.

Butter-Market was again dull and unchanged yesterday, as offerings were excessive and there wrought from \$10. heavy cast 40c, malleable 20c, vanced on more outside buying of distant wrought from \$10. heavy trans \$12. copper \$13. zinc transport and Sept. advanced \$2 cand closed at about transport \$15.

Fowls and 7 Cents on Roosters.

WHEAT STRONGER AND HIGHER ON CROP REPORTS.

Oats Firm, With a Good Under-

tone-Provisions Opened Higher, but Closed Dull.

REPUBLIC SPECIAL Chicago, III., May 12.-Wheat was strong-

er and higher. The Southwest reports crop damage from dry weather. Good buying Corn was weak at opening, but railied

later on good eash inquiry and in sympathy with wheat. Oats were firm, with a good undertone Crop conditions not flattering.

Provisions were active and had a good silvance early, but toward close were rather dull.

Pinal figures showed advances for May and July of 14c, .The latter sold between 704c and 72c, closing at 71%972c. While corn led the carly advance, wheat showed Individual strength later, the Southwest sending in numerous damage reports along with buying, "Shorts" throughout the winter-wheat belt led the buying, but there was considerable buying done on invest-ment account. Cash sales were 25,990 bu, at Chicago and 22 boatloads at the sea-board.

Considerable trregularity was shown dur-

ing the morning, the weakness at the opening being caused by the sharp dip in corn. the loses agross the waters and the larger world's shipments than looked forMALLOGO hu., compared with \$605,00 hu. the
merchan work and \$6.750,00 hu. in the amount
adout was also a bear help, yet it was
affected and to keep the plane.

When earn starten up wheat followed,
was off could to keep the bu.

When earn starten up wheat followed,
on to the price. The strengthening factors
were recuperative power shown at Liverpool, without was only \$40 lover, as comstocks decreased \$52,000 hu. in public houses
and Kamasa was still without rain and
continued dry weather is predicted. Broomhouse reported considerable damage to the
crop in Montgomery. Chinatusqua and Cowcopies and considerable with the country

Timothy and Clover Seeds.

There was nothing doing in futures. At the same time a steady feeling was apparent. Sept. 31.15 but and 31.20 asked. Contract spot seed nominally \$1.50; country lots ranging from tallings to good seed \$2.50(3.39). There was a quotable cash range of \$3.51.55 for poor to fancy seed, below for very low grade and about \$3.39(3.39) for fair to good. Clover—All that was offered was a few small lots of tallings and their sale furnished little criterion of the market. The tone of markets is easy. Some lots of tallings \$3.5964. Country lots of cash \$3679, for poor to choice, tailings lower than inside quotation; fair to good \$7.50(98.39); contract grade nominally about \$3.59.

A little more interest was manifested in the market for hog products, and the feeling was somewhat unsettled. Outside orders were moderate and local speculative trading was fair. At the opening there was a little pressure to sell, mainly on behalf of holders of moderate quantities, and prices ruled slightly lower on all the leading articles. Later there was a little more inserticles. Later there was a little more inserticles.

# CORN OPENED WEAK, BUT Mammoth Oil, Mineral and Land Company.

OFFICERS.

C. H. ALEXANDER, Vice Prest. and Gen'l figr.

EDWARD T. MOORE, Secretary and Treasurer.

### DIRECTORS.

G. Van Ginkel, Prest. Dallas Consolidated Elec. St. Ry. Co. C. H. Alexander, Real Estate. Edward T. Moore, Sec'y Dallas Consolidated Elec. St. Ry. Co.

W. B. Sharp, Beaumont, Texas. G. M. D. Grigsby, Prest. Texas, Sabine Valley and Northwestern Railway Co., Jefferson, Texas.

Authorized Capital Stock \$1,000,000, Divided Into 10,000 Shares of One Hundred Dollars Each. NONASSESSABLE.

\$300,000 Will Be Issued at Once, \$60,000 of Which Has Been Set Aside for and Credited to Improvement and Development Account.

This \$300,000 of stock is based on one hundred acres of land located four miles south of the gushers, ten acres one and three-quarters miles northwest of the gushers, and one hundred acres four miles northwest of the gushers. There are 30 or 40 derricks in sight of the ten-acre tract, and all this land is in the proven oil district. In addition to the 210 acres of leased lands above mentioned, this company owns in fee simple 30,000 acres of land in the recegnized oll district of Texas. We have four up-to-date well-drilling outfits that we will put in the field by June 1 and we are going to develop these lands at once. The titles to all our lands have been passed upon and pronounced good by Duncan and Jones, attorneys, of Tyler, Tex.

We own the perpetual mineral and timber rights in all these lands, and if no oil is found outside the proven dis-

trict, the company can still sell its fee simple lands for farm, stock and fruit-growing purposes, together with the timber thereon, for the amount of the \$500,000 stock to be issued at this time, less a reasonable deduction of, say, from 20 to 25 per cent, which will be spent in drilling wells and developing the oil and mineral rights of the property, A portion of this stock is offered to investors at par. Three hundred thousand dollars is all that will be issued at present, and every dollar of this goes for the purpose of purchasing the lands, developing them and obtaining the leases. The seven hundred thousand dollars of treasury stock will not be used for any purpose, except the acquirement of additional lands, obtaining additional factors. ditional leases, the purchase and equipment of refineries, smelters, laboratories, pipe lines, etc., and all expenditures from this fund of treasury stock will be under the supervision and control of the Board of Directors.

In a matshell, our proposition is this: If we strike oil or minerals in paying quantities, here is our profit, If we do not strike either oil or minerals, our 30,000 acres of fee simple of land is worth at least 75 per cent of the money we

Do you know of any other company that can make this statement? For further information and particulars ad-

New York, May 13.—Hides firm, Leather firm, Wool.

New York, May 11.—Wool quiet.
London, May 11.—The wool auction sales to-day showed 12,00 bates offered. A good selection was presented. Merines and crossived were in good supply and sold treety. Several let's were taken by America. Cape of Good Hope and Natal soured wools were in hetter demand and there were several windhawais. Victorias were in strong den and and competition was brisk.

New York, May 13.—The in London took a decidedly better turn to-day, and before the resision closed values had touched a level of 22 above the previous day's figures on spot goods, closing strong at 100 he and 103 tos not and turiers, respectively. The strength was attributed to a bull movement, with sellers in London very scarce. The local market, aside from a sympathetic advance, ruled quite festureless, with the close firm but quiet at 185,6927. Capper in London and at New York ruled uncanaged but steady, and little, if any business resulted, cloring here at \$17 for Lake Superior and 15,6325 for casting and electroytic, with spot copper at London 159 life and futures at 170 fs 3d. Iron markets in this construct were all inactive and nominally unchanged. Phy Iron warrants 19,59919.55. Northern foundery \$12.09 15.65. Southern foundry \$44915.50 voil Southern fail feature either here or in London, and closed practically unchanged from Saturday's circe.
